## **WASTE CRETE SYSTEMS LAUNCHES INAUGURAL WEBSITE**

HOUSTON – DEC. 17, 2007 - Waste Crete Systems, LLC, inventor of the EnviroWash System and a pioneer in providing environmentally friendly closed-loop concrete washout solutions, today announced the launch of the company's inaugural website <http://www.envirowashout.com>.

The new website, designed by Mungo Creative! ([www.mungocreative.com](http://www.mungocreative.com)), officially goes online today, December 17, 2007. The new site contains a wealth of information about Waste Crete Systems, the EnviroWash family of products, as well as information regarding wastewater, storm water, water conservation and regulatory compliance issues.

The new Waste Crete Systems-EnviroWash website has a user-friendly interface and is easy to navigate. A browser-based Content Management System will allow the site to be updated on an hour-by-hour basis with company news, as well as provide for a separate client area with login privileges.

Another interesting feature included on the site is an animation of the patent pending EnviroWash product illustrating how the EnviroWash system works to filter and recycle concrete wastewater for reuse. There is also a complete photo library available for users to view and download product photography.

"I am excited about getting our site online and I am pleased with the look and feel of it, as well as its interface," said Ricki Abney, Sr. President of Waste Crete Systems.

### **About Waste Crete Systems**

Based in Houston, TX, Waste Crete Systems, LLC, is the inventor of the EnviroWash concrete wastewater filtering and removal system that provides builders and contractors with the optimum solution for concrete wastewater compliance. The EnviroWash System is the only concrete washout solution that prevents nearly 100% of rainwater and groundwater contamination throughout the building process with patent pending closed-loop concrete wastewater recycling, treatment and handling technology. For additional information, visit the EnviroWash Website at [www.envirowashout.com](http://www.envirowashout.com).
